Linea

Design by William Brand

Truthful and pure, the Linea makes a precise yet playful statement through thin lines of beauty.

Floating through the sky, as if a magical formula brought to a standstill the whirlwind of steel, fire and light.
Frozen, both in time as well as in space.

Just like airplanes can leave a composition of line-shaped clouds -the passing proof of human movement in the air- the Linea is like a drawing of illuminating lines in the sky. Temporarily mid-air, permanently illuminating.

Creating a beautiful light is like good architecture: a matter of proportions.

Galaxy

Design by William Brand

The Galaxy is a constellation of energy, movement and form. Propelling away from the centre of gravity towards clouds of stardust and outer planets.

Avant-Garde by nature, the shapes and forms of the Galaxy relate to each other as the planets towards the sun. The artist and the dreamer both know, space is where an image grows.

The new collection Galaxy fell into the 21st century without a trace of regret from a different era, lightyears away. A lasting design has to have roots.

Orpheus

Design by William Brand

One of the most legendary poets and singers in Greek mythology is Orpheus. He sang so beautifully that he touched everyone and all around him. The King and Queen were moved to tears, but also the birds, trees and even the stones were hypnotized by his magical voice.

We have found several objects of desire amidst the nymphs and trees, and formed them into new lights. A precious stone, a golden mineral and a delicate porcelain rose: all captured in a protective embrace of casted bronze.

Orpheus- Nymphenburg

The handcrafted rose is from Porzellan Manufaktur Nymphenburg, creating the finest porcelain for over 260 years. Crafted on the Nymphenburg palace grounds outside Munich, their handcrafted porcelain has been treasured by aristocracy and collectors from around the world

Orpheus-Pyrite

An astonishing mineral, seemingly made by human hands but in fact found in nature, is called Pyrite. Given its strong resemblance to gold, it was nicknamed by gold diggers as ‘fool’s gold’. The surfaces reflect the light in a fabulous way; creating a splendour of golden light.

Orpheus-Amethyst

This precious stone, embraced through the millennia by ancient Greeks , Russian Tsars and English bishops is seen as a protector against dark magic, and a symbol for those in love.

Due to the scarcity of (semi)precious stones and minerals, we need to check availability before an order can be confirmed. All (semi)precious stones differ from each other in size and shape.

Louise

Design by William Brand

With almost carefree delight, William designed this Louise collection: A simple frame, decorated in a pleasing rhythm with glass lanterns.

A hint of chaos, never far away in designs from William Brand, is present: the different colours and positions of the glass lanterns have a joyful effect.

The frame is available in nickel aged, black matt, copper burnished and the lanterns in 4 different types of glass: bronze, clear satin, grey and iridescent.

Ersa

Design by William Brand

A fresh breath of air whispers through the handcrafted branches of the Ersa. Capturing that brief moment of morning glory, when small drops of dew in nature can be found before disappearing in the air of a new born day.

Ersa derives her name from the ancient Greek's goddess of morning dew. Small dewdrops act as nature's perfume.

Shiro

Design by William Brand

By means of the deduction of every unnecessary layer of decoration, a calmness of mind appears allowing for a new collection to be born. The Shiro – Japanese for castle - is the result of a journey of deconstruction.

Stripped of all but the bare yet beautiful essentials, this new collection permits for a well composed equilibrium.

It allows serenity to triumph over chaos.

Eve

Design by William Brand

To be human, is to be aware that there are forces greater than ourselves. From the majestic power of nature, until the longings deep within our soul.

With an elegant twist, although with an undeniable force behind it, the new Eve is crafted. The fruit she carries is tempting.... will the apple be eaten, or not?

Fractal

Design by William Brand

Our brains are set up to bring order in chaos, find logic in confusion and recognise patterns in the opaque. However, what to make of the puzzle of the exact yet endless repetition found at times around us?
Fractal is a natural phenomenon as well as a mathematical set that exhibits a repeating pattern.

The organised chaos of the reflecting elements of the Fractal dispenses the light beautifully in all directions.
The finishes are stainless steel, brass grinded, black matt and white matt.

Flintstone

Design by William Brand

Retracing our steps through the millennia to the beginning of times, we find ourselves back at the fireplace in the prehistoric cave. Here we realise that the most primal of our needs are safety and warmth. The tree branch and the stone, found at the end of this journey back in time, are combined in this lighting object. Every stone is unique, and captures the emotion of eternity as well as being used as a functional counterweight.

The branch of the Flintstone is flexible, allowing the light to be adjusted and easily moved through space.
The length of the branch can be ordered in different sizes.

The finishes are either in black matt, white matt, nickel and brass burnished

Possible length of the branch is: 70 cm, 100 cm, 130 cm, 160 cm, 190 cm, 210 cm or 240 cm.

Kelp

Design by William Brand

Frivolous and light-hearted, spirited and energetic; the arched and curved KELP dances through the air. The light sparkles warmly as in a crackling open fire, bringing an exhilarating sense to any space.

Imagine yourself submerged in a vast tropical ocean, at awe with the unexpected colours and forms in this to you previously unknown world.
Dive one level deeper, and be amazed by the surprising beauty of organisms floating by.

As nature comes in many forms, the KELP can be ordered in different shapes and sizes. The possibilities are endless. Use the KELP elements in any variety you like, as a single object or a dancing composition by entwining various objects together.

Delphinium

Design by William Brand

It is a small step from the purity of nature to the pleasures of life, a step taken at the time of the introduction of Delphinium.

The structure of frivolous iron garlands carrying glass elements evokes an almost secret longing for times bygone.

A new stream of dancing designs comes to the fore, all with a playful hint of hedonism.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. These finishes are created through a natural process and can result in random oxidized patterns.

William Brand

Founder / Designer

William Brand (Owner/Designer) graduated at the University of the Arts in Utrecht, The Netherlands as an architect and sculptor.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be “the cherry on the cake”. His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

Certificate

Each BRAND VAN EGMOND lighting sculpture is issued with a certificate of authenticity and registered with a unique number. This guarantees that you are in possession of an original BRAND VAN EGMOND object.

We advise you to keep this certificate together with your receipt of purchase in a safe place.
