La bellezza è decorazione. Il fascino del gusto rinascimentale ispira la logica della proporzione e costruisce simmetrie perfette. Il cristallo purissimo riflette la luce, moltiplicandola all'infinito, sospeso tra oro e argento. L'eleganza contemporanea di un lusso inconfondibile amato da secoli. Lampadari unici che ricordano una nobile storia e celebrano il bello dell'oggetto d'arte.

Beauty is decoration. Our fascination with Renaissance tastes inspired the proportions that create these perfect symmetries. The purest crystal glass reflects light in an infinity of facets, suspended between gold and silver. Centuries of unmistakable luxury have assumed a new, contemporary elegance. These unique chandeliers revive the noblest history and celebrate the true beauty of objects of art.

Brass&Spots

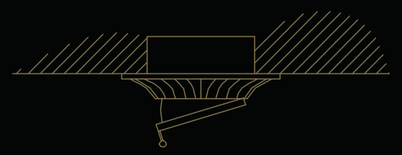

La bellezza è misura. La maestria artigianale modella i metalli più nobili in una collezione che rende omaggio alla luce con il punto di vista discreto del particolare più curato. Come i ricercati gemelli di una camicia sartoriale o i bottoni gioiello di un capo importante. Punti luce e lampade da tavolo sono oggetti preziosi, che rappresentano il bello del dettaglio e del materiale.

Beauty is measure. Superb craftsmanship transforms the noblest metals in this collection, paying homage to light with a discreet focus on attention to detail. Like the cuff links of a tailored shirt or the jewelled buttons of a prestige dress. Lights and table lamps form precious objects that convey the beauty of detail and material.

Glass

La bellezza è tradizione. L'antica arte vetraria veneziana tramanda la sua eccellenza riconosciuta in tutto il mondo. L'originale tecnica della graniglia regala sorprendente profondità materica con piccolissimi frammenti mai uguali, che rendono unico ogni pezzo. L'eredità storica dei lampadari di cristallo di Bohemia disegna grandi candelieri dai bracci in vetro soffiato di Murano lavorato a mano. La trasparenza del vetro espande la luce, mostrando il bello della purezza.

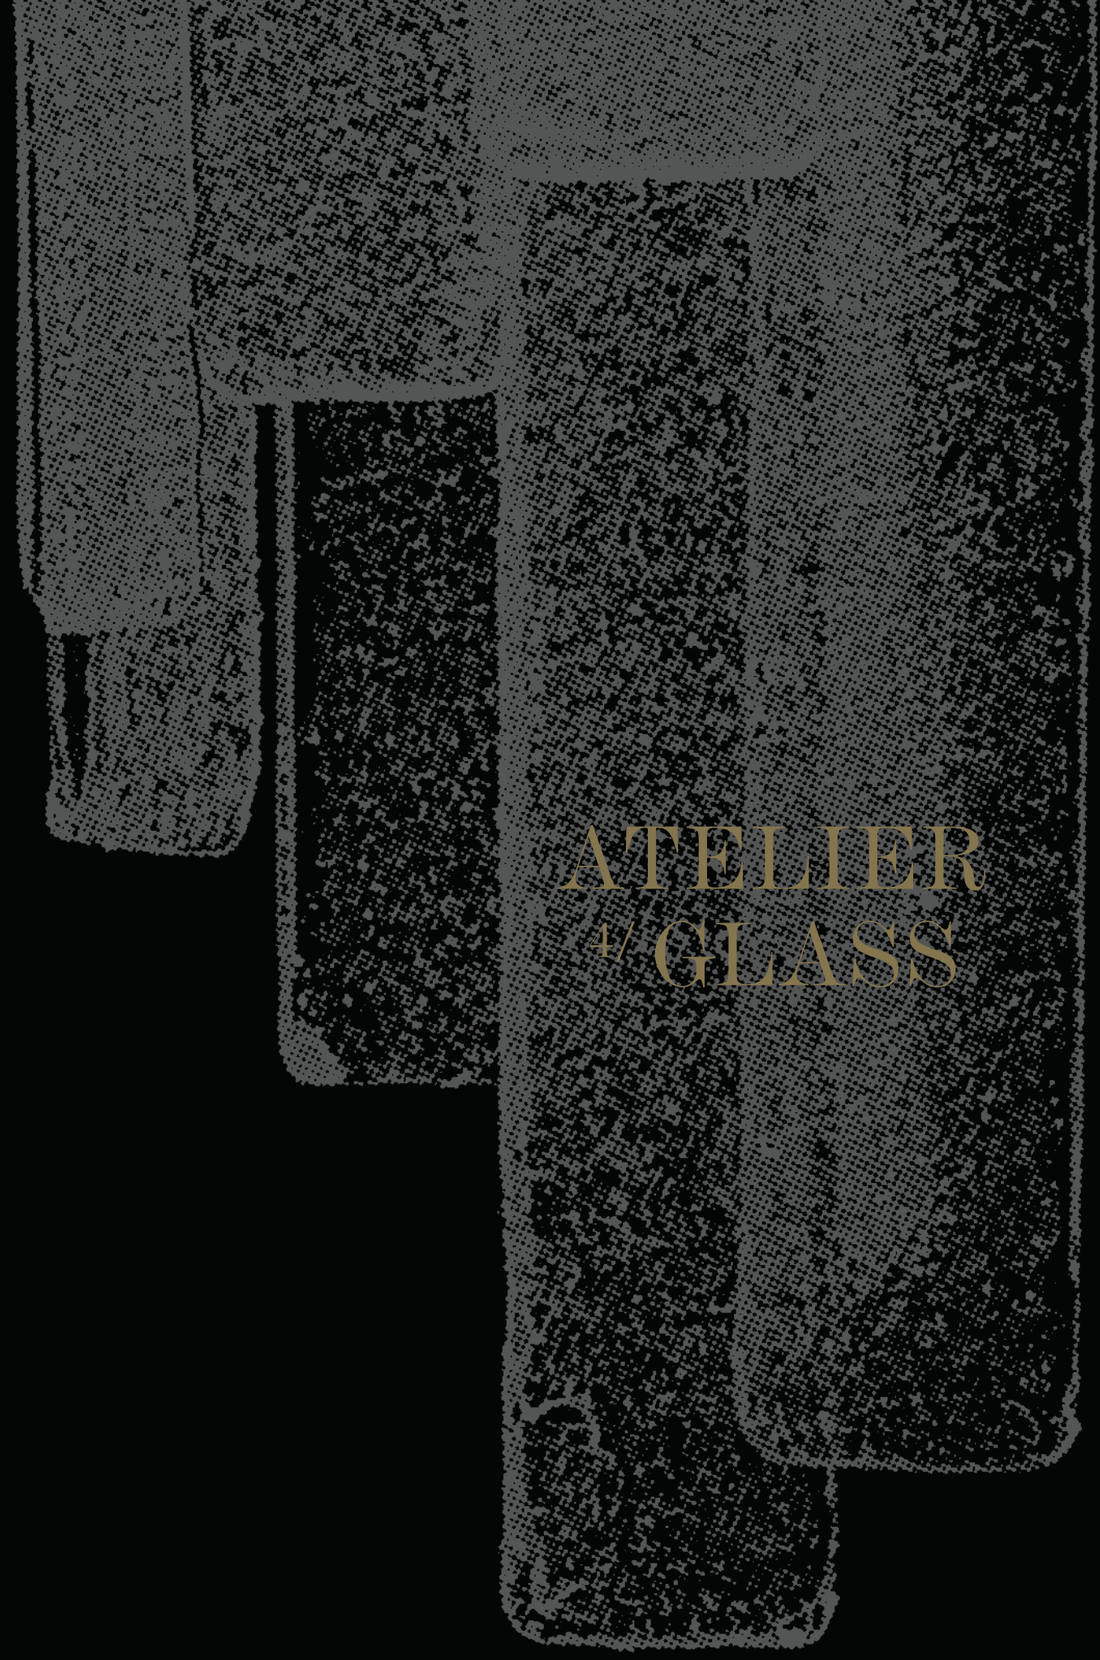

Beauty is tradition. The ancient and universally respected craft of Venetian glass making still thrives today. The traditional technique of 'graniglia' adds surprising depth to glass objects using tiny, never-identical fragments to make every object unique. The classical heritage of Bohemian crystal inspired these large chandeliers with arms in blown and hand-finished Murano glass. The amazing clarity of this glass magnifies the light and conveys the true beauty of purity.

Programs

La bellezza è possibilità. La natura variabile del progetto esprime tutte le sue potenzialità, senza limiti di spazio o dimensione. La personalizzazione infinita della composizione. La creatività disegna elementi luminosi in moduli combinabili su misura, con soluzioni inedite. I programmi rivoluzionano il concetto di illuminazione, costruendo la nuova forma del lampadario contemporaneo, per esprimere il bello della scelta.

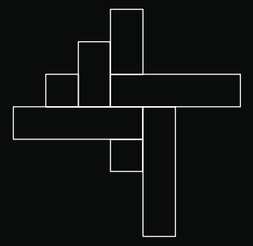

Beauty is possibility. The full potential of this collection is expressed through natural variability and the absence of spatial and dimensional limits. Compositions can be infinitely personalised. Creativity can combine these luminous objects into modular elements capable of forming unique personal solutions. The Programs collection revolutionises the whole concept of lighting, giving contemporary chandeliers a new shape and expressing the beauty of choice.

La bellezza è sintesi. Oltre le definizioni, classico e moderno si fondono bilanciando con eleganza le caratteristiche di forma e materia. Lo stile è un equilibrio composto di idea e personalità. Contesto e arredo diventano complici di una sintesi che li rende un tutto, senza limiti di alcun genere. Il progetto è un pensiero nuovo, che mostra il bello della contaminazione.

Beauty is synthesis. Beyond the definitions, classical and modern merge to create an elegant blend of forms and materials. Style becomes an equilibrium formed by ideas and personalities. Context and furnishing are the accomplices to a synthesis that creates unity beyond all limits. Here is a design that expresses a new way of thinking and highlights the beauty of borrowing.
