PHILOSOPHY

Drawing from years of experience in exclusive lighting, Pieter Adam started his line of lighting as an alternative to the volatile, temporary and trendy mass production items available everywhere. His main focus was on quality and exclusivity with durability, craftsmanship and expertise being high on his priority list.

With a clean slate and full of ideas we began the Pieter Adam Collection with the key words contemporary, exclusive and stylish serving as the main design focus. Every detail and every piece was carefully thought out leaving nothing to chance.

Quality through expertise. Our many years of experience with bronze founders, glass blowers, granite refiners, and silk weavers enables our highly skilled craftsmen to make special limited edition pieces. As a result, we are able to meet special needs and requests, such as complete custom designed lighting plans for special projects.

Perfection is paramount in the Pieter Adam collection. From the silk chords to the metal housing for each fitting, a Pieter Adam piece is assembled with scrutiny and passion. A showpiece in your interior radiating international splendour.

A handwritten signature in black ink, featuring a large, stylized 'P' and 'A' that intersect, followed by the name 'PIETER ADAM' in a smaller, more legible script.

ROSEDALE

A real Pieter Adam piece plays with different materials. The elegance and lightness of the blown glass contradict the shape of the metal which gives a Rosedale piece its distinctive and playful quality thus ensuring its own identity and recognition. The glass beautifully absorbs any colour and the combination of materials engages the light in a very unique way.

The Rosedale series encompasses transparency and exclusivity offering plenty possibilities when you need a real glamour piece. Whether placed in a five-star hotel lobby or in your residence, these eye catchers complement any interior.

Timeless and with a great adaptability, a Rosedale piece easily integrates in its environment while leaving a great impression through its stylish appearance.

BRONX

The Bronx series exemplifies lighting with an international radiance. The Pieter Adam logo, circular interconnecting links, returns frequently within these series. These rings are very recognizable and give this series its own identity.

Inspiration for this series was found in refined traditional workmanship on the one hand and the dynamic development of the new era on the other resulting in an unpretentious design employing geometrical patterns and clean lines.

The Bronx style resembles the Art Deco looks. In the late 19th and early 20th century, the Art Deco workmanship was highly valued and appreciated. Also for this series, a lot of patience and expertise is demanded from our bronze founders. A laborious process, recurring in for example the separate moulding of each ring, which is subsequently melted onto the connecting piece. Polished, silver/gold plated and varnished, each piece is made with the utmost attention to perfection.

MELTING PARIS

The Melting Paris series combines nature's radiance with organic shapes in a contemporary style by employing a raw surface of bronze. Recognizable shapes are restyled to achieve their own look.

In contrast with today's mass production, Pieter Adam wants his designs to show his personal touch and signature. This is clearly visible in the Melting Paris series where each piece is handcrafted in wax literally showing the artists' finger prints. When looking at a Melting piece one can see the organic, unrestricted shape; nothing is straight or smooth. These pieces are characteristic of detail and achievement. The possibilities bronze casting offers are being employed in all its facets.

The freedom of creativity and inspiration is ultimately found in creating something by just using your hands. It is the purest way of designing. Away from all mass produced items and searching for the authentic craftsmanship only traditional craftsmen can achieve. Sustainable, with love for his craft and the end product, a Melting Paris piece truly gives a peek in the artist's head.

MELTING AMSTERDAM

Our capital Amsterdam has a rich history and has been a cultural melting pot for many centuries. As a result, the city has its own identity with freedom and individuality being its main traits. This is also true of the new collection designed by Pieter Adam™. The copper-tinted chandeliers of the Golden Age were a source of inspiration for this unique line of lighting fixtures. Tradition and craftsmanship are applied in a contemporary way bringing the past, present and future together. Materials such as gold, silver, Murano glass, silk and brass casted in sand are used for their superior quality. The Dutch design of Pieter Adam™ supplies the originality.

TWIGGY

Pieter Adam's Twiggy line comprehends contemporary design and sustainability. Twiggy is a collection based on nature's purest grace. Inspiration was found in the organic, capricious shaping of twigs. Pursuing nature's strength in growing strong and solid with its unequalled, beautiful and characteristic appearance was serving as the main source of inspiration for the designer. Fair materials like brass and glass emphasize the sustainable nature of this collection. Organic shapes casted in brass and crafted with the utmost attention to detail combined with mouthblown glass providing a subtle reflection of the halogen light. Finishes like silver and gold give this lighting series its specific and exclusive radiation.

Look, feel and admire: enjoy nature's beauty where no twigs are alike.

LE SOLEIL

Pieter Adam's Le Soleil design encompasses the shape and warm shine of a radiant sun. Nature's beauty has always been a main source of inspiration for the Pieter Adam collection and this was no different for the Le Soleil design. A natural shape made of bronze, with a closed inner circle and an outer circle scattering rays of light. This sculpture has a very pleasant and warm appearance. It can be adjusted to the wall, as well as to the ceiling, ensuring an unique diffusion of light. Le Soleil is available in four sizes and in the finishes bronze, silver and gold. Contemporary and subtle design are characteristic for the Pieter Adam collection and for this, Le Soleil is no exception.

ORGANIC ATOMIC

As its name indicates, the design of Organic Atomic is reminiscent of the smallest particle that an element can be reduced to. This lighting object resembles the organic both systematic composition of everything we see around us. Based on the organic work of art, the spheres are connected in a way that the whole forms an impressive and striking piece of lighting. The Murano glasses with silver leaf are specially blown and designed for this new Pieter Adam series. Sculpted by hand and casted in brass, the connecting pieces can be linked in many ways providing endless possibilities for customization. This leaves lighting architects the opportunity to give their own interpretation to this design and fit it perfectly into their lighting projects.

MELTING FLOWERS

Flowers bring happiness, lightness and positive feelings. Inspired by his own garden, Pieter Adam began to mould these breath-taking products of nature in wax. With his designs, Pieter hopes to contribute to a joyful interior. For this, he most certainly succeeded with this Melting Flowers series existing of both hanging and wall lamps.

A flower is both beautiful on its own as well as bound together. This also accounts for the series of wall lights. One piece on itself is very decorative but filling a wall these objects are irresistible as well. All pieces are made by hand in brass and subsequently provided with a gold, rose gold or real silver layer.

The series of hanging lamps is very eye catching and perfectly suitable for a sophisticated setting. The flowers, in all their diversity, give these hanging lamps their appealing and lively appearance. The light is scattered in a unique and beautiful way, contributed by the thickness and silver spots of the glass bulbs. For these beautifully blown glasses, Pieter went to Italy where quality is still being made as he so much appreciates.

MYSTERIOUS BAMBOO

Nature can work in mysterious ways, with its grace and curiosity serving as a great source of inspiration. In various Asian cultures bamboo is regarded a symbol for uprightness and tenacity. The plant is often endowed with traits as integrity, elegance, and optimism. The new Mysterious Bamboo series represents Pieter Adam's own interpretation of this noble plant, enriching it with a playfulness, joy and light-heartedness. The integrity and elegance in the detailing shows a great admiration of nature. THE ONLY ENEMY OF ART IS TASTE

THOMAS HOVING

MELTING FEZ

With the Melting Fez series, Pieter Adam shows a new angle on combining varied authentic aesthetics. The sharp-edged curls, a Gothic decorative element, blend beautifully with the Moroccan feel of the lantern. The transparent, delicate fabric combined with the toughness and fickleness of the brass side lines, create a pleasant tension. The light sheltered in the stretched fabric adds a softness and warmth to the mystic sense this design exudes. Mysterious yet frivolous, this lush piece of characteristic lighting merges wonderfully in an ancient ambiance, complementing it with a contemporary twist.

This new series of lighting will soon be extended with wall lighting.

MELTING FLORENCE

Melting Florence is Pieter Adam's first series of lighting that can be used both indoors as well as outdoors. The series consist of lanterns with a distinctive twist. The history of lanterns is long standing. Italian lanterns were Pieter's source of inspiration for designing his own version of this centuries-old form of light. As usual, he shows a completely own silhouette corresponding his language of form and shape. The distorted lines and the surprising organic shaping create a completely new interpretation of an ancient type of lighting.

Pieter Adam hopes you will enjoy these objects as much as he enjoyed making them. Fantasy does not know any boundaries.

These dancing figures are remarkably lifelike and vividly shaped showing the designer's positive attitude and passion for the good and beautiful things in life.
