Volta

10 years

Volta evolves with two new diameters that translate its distinctive linear form into three-dimensional space, establishing a new relationship between light and architecture. Combined, the two luminaires create a two-tier sculptural chandelier that expands compositional possibilities.

Volta evoluciona con dos nuevos diámetros que trasladan su característico trazo lineal al espacio tridimensional, estableciendo una nueva relación entre la luz y la arquitectura. Combinadas, ambas luminarias crean un chandelier escultórico de dos niveles que amplía las posibilidades compositivas.

Thales

Thales is inspired by the delicacy of a water droplet in perfect balance, transforming that natural moment into a luminaire with soft lines and a serene presence. Light passes naturally through the opal glass, creating a warm, enveloping atmosphere that brings calm, harmony, and timeless elegance to the space.

Thales se inspira en la delicadeza de una gota de agua en equilibrio, transformando ese instante natural en una luminaria de líneas suaves y presencia serena, donde la luz atraviesa el cristal opal con naturalidad, creando una atmósfera cálida y envolvente que aporta calma, armonía y una elegancia atemporal al espacio.
